

# New Year's Eve 2011 National Automobile Museum

First we had hors d'oeuvres while strolling along the street scenes with the classic old cars from the Harrah collection.

They've even updated the display to include Burning Man!!

Next we headed into the gallery and were served a fantastic dinner among even more fantastic cars (and of course the bar).

Then to burn off some of our amazing dinner,

We danced to some great music - with LOTS of requests fulfilled!

As you can see . . .

This year we celebrated and rang in the New Year with couples, singles, old friends,

new friends, family members and guests who became friends

As if all of that wasn't enough -

we headed outside to watch the fireworks from along the Truckee River. What a great way to bring in the New Year!

To all of you I wish for a Happy, Healthy, Prosperous and Fun  
2012!!
